

SCHOOLS:

Students have access to their schoolwork through Distance Learning. Teachers are staying connected to students using cloud-based services like Google Drive. Arvig® has deployed the Education Assistance Program to families of K-12 students to receive free internet service so their education can continue with schools closed.

HEALTH CARE:

Clinics and hospitals continue to serve patients; electronic medical records can still be accessed and telemedicine remains an option with stay-at-home orders in effect.

BUSINESSES:

Companies temporarily closed to the public can continue serving customers and employing their teams thanks to telecommuting and broadband technology. Restaurants still can process orders and offer carry-out.

MEDIA:

News organizations keep the public informed, with many even lifting their article paywalls to make sure everyone has the latest information for free.

#ARVIGCONNECTED

Every Day

Arvig® assumes its role as an essential service provider with the utmost responsibility. We're far from "business as usual" right now, but thanks to **core services like high-speed internet**, not everything is down and out. Here's what's happening every day in communities across our state.

FINANCIAL SERVICES:

Banks and financial institutions continue to offer online account management and bill-pay services.

GOVERNMENT:

From first responders to utilities managers, critical services remain in operation in towns and cities.

COMMERCE:

Online shopping and ordering continues, even with shipping delays or limited warehouse teams.

DAILY LIFE: Church services can be broadcast at home through the use of live streams on social media and websites. Book clubs gather via Hangouts. Friends keep in touch on Skype and Facetime.
