EXPERIENCE THE TRUE POWER of the Arvig® app!

Check your internet speed.

Run bandwidth tests to monitor your network performance and give bandwidth priority to specific devices.

Easily set up a guest network.

Keep your network passwords secure by setting up appropriate guest networks for your home.

View and manage all devices connected to your network.

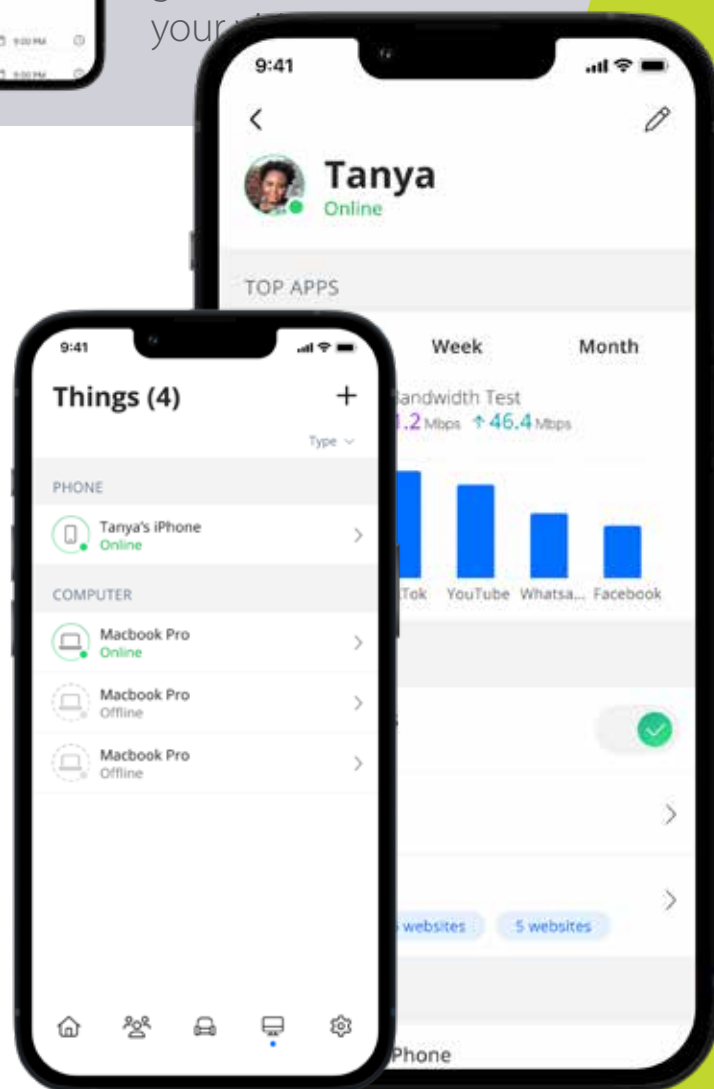

Track a device's bandwidth usage, pause its network access or disconnect it.

Set parental controls.

See what apps your kids are using, how long they're used for, and tailor their experience by blocking inappropriate sites and content, or setting usage limits.

Active threat protection.

View total threats, intrusions and viruses blocked over time. You can even see protected devices and total protection uptime.
